

About this document

Defining the identity of Stellarin

This document outlines the guidelines for creating products and communication materials for Stellarin.

Furthermore, the use of visual identity elements is defined by a set of rules and recommendations for designing with consideration for the context, the complexity of the environment, and the media where the brand is projected.

Who is it aimed at?

To all the people who work with the Stellarin brand

This guide is intended for those directly or indirectly responsible for the design, management, and maintenance of digital, print, and outdoor products. It is for people who work in Stellarin's communications on a daily basis.

The background features a series of concentric, slightly tilted ellipses in a teal color, creating a sense of depth and movement. Overlaid on this is a large, white, sans-serif number '04' positioned in the upper right quadrant.

04

INTRODUCTION

Our *goals*.

What are we looking for?

A

Build a globally scalable brand for the future of pickleball.

Create a distinctive and future-ready identity designed to grow across markets and cultures — positioning the brand as a global reference for connected sports, community, and lifestyle experiences.

B

Create a unified and recognizable ecosystem brand.

Develop a consistent brand system capable of bringing together courts, events, tournaments, digital experiences, community, and lifestyle under one powerful identity — ensuring every interaction feels seamless, innovative, and memorable.

C

Define a bold visual and verbal identity with long-term impact.

Establish a brand identity manual that provides clear foundations for expression across all touchpoints — including logo, tone of voice, motion, digital platforms, apparel, social media, and event experiences — creating a modern, differentiated, and emotionally engaging brand with global appeal.

The background is a solid dark grey. Overlaid on this are several concentric, slightly tilted ellipses in a teal color. These ellipses are centered around the '0' of the '02' text. The ellipses vary in size and opacity, creating a sense of depth and movement. The text '02' is rendered in a clean, white, sans-serif font.

02

BRAND

Geometrization

The geometric construction and its protected area are defined for proper application. The reduced version of the logo for correct display in digital environments is 180 pixels wide (proportional).

Minimum sizes

Main printed version:
35mm wide x
proportional height.

Digital reduced version:
100px wide x
proportional height.

Master brand

Main version

It is the official version used in landscape format.

Versions

Depending on the circumstances, the medium, or the final format, there are different versions of adaptability. The main version is the one that should be used first.

Main version

Vertical version

Isotype

Meet. Play. *Stay.*

Represents a new way of living pickleball:
a place where people connect, feel inspired to play, enjoy the energy of the game,
and stay longer through shared moments, conversations, and community.
More than a match, it’s a social experience that turns sport into connection,
fun, and belonging.

Global brand

Monolithic - S

Monolithic - L

Sub-Brand

The background is a solid dark grey. Overlaid on this are several concentric, slightly tilted ellipses in a teal color. These ellipses are centered around the number '03'. The number '03' is rendered in a large, white, sans-serif font. The ellipses vary in opacity, with the ones closer to the center being more vibrant and those further out being fainter, creating a sense of depth and movement.

03

VISUAL
UNIVERSE

Primary color palette

Color usage map

The environment for color usage is mostly digital; therefore, the hexadecimal color palette is prioritized. Additionally, a color map is shown to determine the percentage of color used in each product/service.

Secondary color palette

Use of color

To ensure a universe rich in nuances in the world of sports, secondary colors are added that we will use as support.

Valley	Mountain	Volcano	Night	Sky	Solaris	Sunset	Sun

Space Grotesk and Playfair Display

The selected typefaces are chosen for digital use as well as in web applications and environments, ensuring accessibility and legibility. Space Grotesk is the primary font for headlines and paragraphs. Playfair Display Italic is used for accenting words within a headline. The Arial family is used as the default system font.

Come

Stellarin spirit

The images are inspired by Stellarin’s positioning and spirit: attitude, vitality, connection, community.

Pattern

Flow

The movement waves in our pattern place the person at the center of communication. This makes it a distinctive hallmark of our Stellarin brand for communications. They are open and flexible forms.

04

CORPORATE
ELEMENTS

Layout

The picklecourt

In addition to generating an authentic liquid layout based on the pickleball, our structure will help us organize the information, becoming a distinctive communication design.
